Over the last century, as airplanes have evolved from the simplicity of the Wright Flyer of 1903 to today's incredibly

powerful and sophisticated aircraft, certain models have retained honored places in the history of flight. This colorful sticker book pays tribute to 16 of these classic airplanes, from the time of the first powered flight through the 1930s. Included are accurate, detailed images of the Wright Flyer, as well as the Curtiss NC-4 flying boat of 1919, the World War I Sopwith Camel fighter, Lindbergh's Spirit of St. Louis, the Boeing P-26 "Pea-Shooter" prewar fighter of 1934, the 1935 Douglas DC-3, first of the truly modern airliners, and ten more. Flight enthusiasts and sticker fans alike will thrill to these painstakingly rendered dynamic images of airplanes that will turn notebooks, posters, lockers, lunch boxes almost any flat surface into exciting aerodromes.
