Daniel Rhodes : Clay and Glazes for the Potter - Arts and Crafts Series before purchasing it in order to gage whether or not it would be worth my time, and all praised Clay and Glazes for the Potter - Arts and Crafts Series:

1 of 1 people found the following review helpful. DisappointedBy Ron StaffordJust received the book and was a bit disappointed. Did not realize it was republished. Some of the pages look as though they have been copied from another book as there is copied underlining on the pages. There is no information on which edition this book is or if the information has been updated since its first publication. I am using this book for a Glaze Formulation class and it was recommended. Will see if it is informative enough for me as the class goes on.1 of 1 people found the following review helpful. The book content is great, but the edition itself is awfulBy Debora BensusanThe book content is great, but the edition itself is awful.Seems to be a photocopy , with underlined text (made by hand, some times over the words) and hand written side notes all over.Not worth it! Not worth choosing the cheapest in this case.0 of 0 people found the following review helpful. The Bible on clay and glazesBy Eileen MorganThis is a comprehensive guide to glazes and clay. It is a classic textbook. I am so glad that it is available in an electronic form for those of us who cannot easily access English books.

Book is used and has been withdrawn from service from a Library. Book has a Library Binding and the usual Library Stamps, Stickers, Card Holder, Library Markings. May or May Not have a Dust Jacket.
