Doris Kutschbach : Coloring Book Kandinsky (Prestel Colouring Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised Coloring Book Kandinsky (Prestel Colouring Books):

3 of 3 people found the following review helpful. A great coloring book!By SarahThis is not your average coloring book and my girls loved it! I added "Noisy Paint Box" into their reading pile at about the same time as I put these in their road trip bags. I did not point out the connection and they figured it out on their own (age 7 and 5). I as a rule do not buy coloring books, but this one has been fun especially since it feels like they can truly do whatever they want with the page...Kandinsky does not exactly require that things be colored a certain way! It was a good purchase and I may even buy again. It is also really sturdy and durable - not something you typically look for in a coloring book, but for which I ended up really appreciating!0 of 1 people found the following review helpful. Wouldn't recommend.By JamiNot much coloring, mostly book. An not that well written. Wouldn't recommend.0 of 2 people found the following review helpful. Five StarsBy Michelle S. CreelGreat!

Big art for little hands, these enchanting activity books allow young artists to explore the worlds masterpieces on their own terms and with plenty of space to color outside the lines.
