I received this booking and I couldn't stop coloring the mandalas with gelpens until the entire book was done.0 of 0 people found the following review helpful. if you want a Unique new look at Mandala's - COLORPLANER IS FOR YOU!By Native New Yorkdep2dogsNoel Ruzic is a wonderful artist and designer of intricate yet absorbing drawings for colorist of all abilities. This book of Mandalas is different from the run-off-the mill shutter stock collections and as such is a gem in the mad mad mad Adult coloring world. I have had the joy to work on a number of this artist's designs and have enjoyed turning a page to always see something new and different.I highly recommend coloring mandalas for stress relief as I myself love getting lost in their repetitive patterns and circles - i know that Noel Ruzic's designs will not disappoint. I love this artists work, and I'm sure you will too.The

pages are single sided and have a perforated line for removal should you decide to work on them in a table, clipboard or for framing. I chose to use colored pencils but being marked and/or gel pens will also bring these drawings to another level! They are different and unique - a new look at similar images. Attached is sample of one of my WIP's from this artist. I hope that you can glean how fun and unique all of these drawings are and how enjoyable they are to color; I highly recommend Colorplaner. I received this book for my for and honest review.

Mandala is far more than a simple shape. It represents wholeness, and can be seen as a model for the organizational structure of life itself--a cosmic diagram that reminds us of our relation to the infinite, the world that extends both beyond and within our bodies and minds. Having that on mind, we created Mandala Colorplaner book as a spiritual guidance tool for individuals along the path of calmness and relaxation. This book contains 31 Mandala images in various styles and differing levels of intricacy. The images are printed on a single side of the paper to help prevent bleed-through. We recommend putting a sheet of paper or card between pages if using strong inks. The back of each page is marked with a cutting line to aid removal of pictures. Sit back and enjoy in a meditative, almost therapeutic Colorplaner journey. We surely will. Happy coloring!
