I have every one of Bennett Klein's books and can't wait to add a "greatest hits" book to the collection! Once you explore the imagination and talent of this artist you will be forever drawn to his work! Every image is a work of art, drawn with incredible detail to guide the colorist with shading. Excellent series of books - I highly recommend!6 of 7 people found the following review helpful. Stunning!!By scwardI absolutely love to color as it's a great stress relief. Over the years I've collected many coloring books - but since I found Bennett Klein that has changed. His work is simply amazing. He has such a wide variety of designs in one book. Some books have the same type of design over and over and over. Not these books. I absolutely love the wide variety of designs. I have his entire collection and I sit on the edge of my seat waiting for his newest

release. You won't be disappointed when purchasing a book from Bennett. You'll be addicted as well. Also check out his group on Facebook - you can see for yourself all his designs colored and how supportive he is of all his followers. 2 of 2 people found the following review helpful. ... by Bennett Klein is masterfully drawn and are a joy to color By Jpauley Every book by Bennett Klein is masterfully drawn and are a joy to color.
