By Tiborius MaximusThe rule set is less than great which was what I expected having read reviews on wargaming websites. But otherwise no complaints as far as the seller is concerned.

Command Decision contains everything you need to get started except the miniatures and the tabletop:- A 96-page rules booklet, covering all important aspects of modern combat from 1939 to 1992, including armor, infantry, aircraft (both fixed and rotary wing), airmobile, and amphibious rules. In addition, a six-scenario sample campaign (Stolberg Corridor) is included, along with rules for running your own campaigns.- Armies of World War II, Volume I, a 224 page book containing divisional tables of organization and equipment for the major powers of World War II: France, Germany, Italy, Japan, Poland, the United Kingdom, the United States, and the USSR.- A National Data Charts booklet, containing game statistics and data on every major weapon used by the eight nations covered in Armies of

World War II, Volume I.- Two counter sheets, containing marker chits for Command Decision's innovative command system, morale markers, and status chits.
