Deirdre Bond-Abel's second book on wool applique and it is as nice as the first, *Elegant Quilts, Country Charm*. The designs feature curvy floral pieces that would be easy to do in wool or cotton. They create the patterns from freezer paper and iron them to the wool applique fabric. Some of the projects are small such as table runners with my favorite being Hearts and Flowers. I look forward to more books from these authors. 0 of 0 people found the following review helpful. Five Stars

Today, just about anything goes when it comes to the fabrics you choose to go in a quilt. Australian shop owners Leonie Bateman and Deirdre Bond-Abel specialize in combining felted wool and reproduction fabrics in their work. I loved the extra dimension that the appliqued wool pieces added to the work. You will find 12 projects in a variety of sizes for all skill levels. They also include a tutorial for an easy way to cut and applique a dogtooth border. I particularly liked "Rhubarb and Custard" with its positive/negative image and the pillow "A Little Bird Told Me" with its bird and flower applique on top of a half-square triangle background. --Morna McEver Golletz, ICAP Newsletter, November 2014
Dress up your cotton quilts with soft and warm wool appliques! Bateman and Bond-Abel have designed an inviting group of wool applique designs in a variety of sizes for all skill levels. Working with wool is a unique pleasure and the results are beautiful. Since the edges of felted wool do not fray, the raw-edge appliques are simple to apply, especially following the authors' expert advice and tips for using wool. --Quilters Newsletter, April/May 2015
