Mike Hulbert : Country Living Crafting Soap at Home before purchasing it in order to gage whether or not it would be worth my time, and all praised Country Living Crafting Soap at Home:

0 of 0 people found the following review helpful. I love this bookBy Chris TorrenceI love this book. If you are new to soaping, it is a great first book, if you are more experienced, it is still a good reference. The soap recipes are easy and there is a variety.0 of 0 people found the following review helpful. Great bookBy cheryl williamsonI love this book, and actually took a class from the author. I guess for me, the book was supplemental to what I learned in class. I use my own receipes, and don't follow the receipes in the book, as I want my soap to reflect my blending style. I superfat a bit more, but you also have to know what you are doing, and I have over 5 years of experience making soap. I was introduced to calendula by taking Mike's class, and only have good things to say about what I learned. Do your homework and use the book as a guide, research carrier oils, and play... your recipes and modifications to recipes will change based on additional research. I learned so much from Mike and I am glad I bought the book.0 of 0 people found the following review helpful. Five StarsBy kaye yarbroughGreat product and service

Here's everything you need to know about creating fabulous fragrant and rich-lathering soaps that use only natural ingredients and essential oils. Whip up each batch using seven recipes for either the cold-process method or the melt-and-pour (or hand-milled) technique. Pamper the face with Patchouli Complexion Soap; bathe in the sensual aroma of a Sandalwood Body Bar. There are also recipes for laundry, dishwashing, and household cleansers.
