By VY If you are familiar with Cathy Carron's books, then you know what to expect: fun designs, clear instructions, beautiful photos, and lots of interesting tips and techniques that you can apply to your other knitting projects. I always learn something valuable from Cathy's designs. For example, reading the instructions for the Sun Valley cowl, it makes me realize that this easy method for lining the cowl could be applied to so many other projects. I also love the texture and am eager to give that technique a try. I am also excited to make the Cafe Au Lait because it looks so dramatic and A Knitting Romance because it is so beautiful. Cowls are wonderful projects because you can try something new (luxury yarn or a new technique) in a small, manageable project. And they are so useful for keeping your neck warm without the size and fiddliness of a scarf. This book is loaded with fun projects to suit many different tastes. You are sure to find something to love in here. 5 of 7 people found the following review helpful. SAVE YOUR MONEY! Don't even buy this. By TechWriter If you

purchased Cowl Girls 1 and were hoping this would be as good, don't bother! First of all, inserting a zipper into a knitted cowl is not my idea of doing something clever in a craft. There isn't even anything I thought I could alter slightly to make interesting. A complete disappointment, and very short, too. Guess even they realized they had little to offer. 2 of 2 people found the following review helpful. A Cowl or Two or Three for Everyone! By booknerd85 What a great collection of cowls! From simple ribbing to oversized to clever twists on ponchos, this book has a cowl or two, or three for everyone. I like the range of techniques included, and the styles really are diverse. It's the perfect book to get right now ahead of the holiday season. Time to get to work!

The cowl is back! Bestselling author Cathy Carron once again gives the cowl her visionary treatment. Showcasing 35 fresh designs, this book offers an impressive range of styles, from Caf au Lait, where two contrasting colors combine with a ripple pattern, to the sleek, double-faced Sun Valley. Beautiful colorwork, beading, shaping, cables, textures, embellishments, and more will catch the eye and hearts of every knitter and fashionista.
