with intention. Easy to read, clear instructions, and enough pictures to help clarify instructions. Heavily influenced by New Age "manifestation" thought, but does employ familiar neopagan symbols and ideas like pentacles and working with the elements. 0 of 0 people found the following review helpful. Fantastic book chock full of great idea's and "old soul" wisdom. By D.LO Fantastic book chock full of great idea's and "old soul" wisdom. I am using some of the project idea's to give as holiday gifts. This book is great quality and the author uses very simple techniques to explain what she shares and how to do the projects. I think this book is worth more than I paid for it and it will stay among my favorites. 2 of 2 people found the following review helpful. Very Satisfied By Marilyn I've taken this book out at the Library so many times, it was time for me to buy it. I received exactly what was advertised, and I couldn't beat the price. I'm very happy with my purchase.

Filled with straightforward, accessible information that can be used in everyday life with dramatic, positive results, this compendium of craft ideas provides clear instructions for constructing 20 practical, magical, and spiritual items and shows how to employ simple metaphysical techniques to maximize their potential. Projects include a magic wand, a divine dream pillow, a gemstone amulet, a divining pendulum, prayer beads, power talismans, mystic runes, and magical beeswax candles. Each chapter features fascinating background information, illustrated examples, and other creative tools to help stimulate the imagination, such as chants and prayers. Additional magical association keys including guides to color, astrology, moon phases, crystals, metals, and numerology help crafters focus their intent to achieve specific goals, from love and wealth to happiness and health.
