**Anname Wolmarans : Create Your Own Scrapbook** before purchasing it in order to gage whether or not it would be worth my time, and all praised Create Your Own Scrapbook:

Scrapbooking is an art form that you use to preserve photos and other mementoes in an acid-free environment in the most interesting way you can. The interest in this craft is enormous worldwide, with thousands of crafters wishing to preserve special moments in their lives by creating memory albums. In this book, expert advice is given on how to crop and matt your photographs, how to choose the right paper for a particular layout, how to lay out each page as well as which tools and equipment are required to create a myriad techniques, such as wet and dry embossing, scrapping with serviettes, mosaics, pop-up pages and shaker boxes. Each technique is accompanied by clear step-by-step instructions and photographs.

About the Author Anname Wolmarans lives and teaches the art of scrapbooking in Pretoria. She was inspired by the hobby while living in the United States, where it is a billion dollar industry. This is her first book.
