Beautifully painted knights mostly in 54mm scale and mainly from the 100 Years War Period. It features both English and Italian text (only fair since one of the authors is Italian and some of the best figures and artists are Italian nowadays).A brief word of caution: This is not a 'How to do it modeling manual'. It is rather a celebration of the color of heraldry in miniature. Co-author Peter Greenhill has written about Heraldic Knight toy soldiers and markets a line of them based on the old British toy knights of Richard Courtney. As a result a lot of the beautiful pictures are of what modelers would call toy soldiers rather than military miniatures.The book main focus is on the heraldry of the 100 Years War. There are sections on coats of arms, armor and the main battles of this war. The second half of the book features glorious dioramas using genuine 54mm miniatures. Too bad they don't list the manufacturers. Overall worth the price.2 of 2 people found the following review helpful. Creating Miniature KnightsBy Librarian SC USAThis is a beautiful coffee table book that is actually informative and helpful if you paint heraldic miniature knights. The examples are beautifully photographed, and the text clear.0 of 1 people found the following review helpful. 5 StarsBy Patrick ZShipped very quickly and a great price!
