The directions are quite good By Debbie KD This is the most recent edition of these books that are full of wonderful projects. The directions are quite good, so this should be a good value for most levels of beaders. 0 of 0 people found the following review helpful. Best of the patterns out of the year's magazines! By A. Garner Creative Beading - So glad you have compiled just the patterns into a book. Each volume is a beader's playground of patterns. I hope to collect all of them. Used are just as good as new at a better price, and they're worn in. 2 of 2 people found the following review
