From Brand: Kalmbach Books : Creative Beading Vol. 4 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Creative Beading Vol. 4:

1 of 1 people found the following review helpful. I love these books By Bicoastal Nomad I have all of these except Vol 2. I love these books! If you are not familiar, they give the very best instructions from the subscription BeadsButton Magazine for the entire calendar year. I have been a subscriber for years, and love to keep the magazines handy as well, but to have the very best of the ideas and instructions in one handy place is indispensable. The instructions are always quite clear and easy to follow, and you don't generally have to worry about not having or being able to get the particular beads needed. If nothing else, Fire Mountain will have what you need at a good price. 0 of 0 people found the following review helpful. I'm a little rough on beading books so love these hardcovers that protect the pages from me By Beading by the Lake Love having these hard bound "yearlies". This volume is another winner even though the

cover is probably my least favorite of all the volumes. I look through these books several times at least each year, as I wish to learn a new stitch, get inspiration, or even make a variation on a project. I have bought these every year except volume 2, which I didn't like as well as volume 1 which I had, but could kick myself since, as it has been out of print for years, and scarcity makes the price too dear for me, and I want the book now. I have not wanted to miss out on any other volumes going out of print. Was this a marketing ploy? It worked on me. 0 of 0 people found the following review helpful. Beading Vol.4 By Julie Wagner Great details

Comprised of projects that appeared in BeadButton magazine between October 2007 and August 2008, the 82 designs in this book have been thoroughly tested by the magazines readers and editors. The projects utilize a number of techniques, including stringing, wirework, chain mail, bead crochet, and loom weaving, and they are illustrated by 900 full-color, step-by-step photographic instructions.
