If you are not familiar, they give the very best instructions from the subscription BeadsButton Magazine for the entire calendar year. I have been a subscriber for years, and love to keep the magazines handy as well, but to have the very best of the ideas and instructions in one handy place is indispensable. The instructions are always quite clear and easy to follow, and you don't generally have to worry about not having or being able to get the particular beads needed. If nothing else, Fire Mountain will have what you need a a good price.0 of 0 people found the following review helpful. Must Have!!By yvonne kostelnikLove, Love, Love this book!! It is loaded with easy to follow, detailed instructions and great projects. There is so, so much to do in this book. There is a great variety of styles and patterns included in this book. You will never be bored with this book around. Did I say I love this book!29

In whatever you interested (stitching, wirework, bead crochet etc) you will find it in here and for all beading levels.When I lack inspiration I just open this book.The great thing with this book is that you can combine some techniques and small parts of one project with another and have a totally original outcome.

Creative Beading is a fine addition to any beaders library. It showcases nearly 90 wonderful projects selected from the pages of BeadButton magazine, plus contributors' tips and techniques. Full-color photography and thorough step-by-step instructions accompany each editor-tested project. From easy strung bracelets to sleek crocheted bead ropes, theres a project to excite and inspire everyone.
