When you open this book.....the colors and designs literally leap off the page! Talk about a FEAST of color! The table of contents has so manywonderful ideas and samples, recipes, sections on tools and supplies, brayer techniques, lists of supplies, etc that I couldn't decide just where to start!There is a long (3 page) list of tools and supplies - but don't give up, many items are things that you probably have at home in your kitchen or in your studio.The book itself is 112 very colorful pages of ideas, samples, techniques etc. There is a brief demo of the Provo Craft's Cuttlebug machine and how it's textured pieces could be used in collage.Not having a machine to try I moved on to the other sections on Crayons, Oil Pastels, Colored Pencils, Brayer Techniques, interesting things made with cotton pads, what you can do with ink jet labels,foam

stamps, hair gel and even Batik made with washable glue! Gelatin and Wax Mediums were also demonstrated. There are Galleries throughout the book that are truly a feast of color and design. On the front cover and between the title "Creative Mixed Media".....it says "Paint, Print, Stitch, Stamp and Embellish" and it does all that and more! Great Purchase! 0 of 0 people found the following review helpful. The moment I opened the book I found myself paging through it so quickly to look at the pretty pictures I repeatedly had to stop. By Stephanie A Michaud I don't know where to begin. The moment I opened the book I found myself paging through it so quickly to look at the pretty pictures I repeatedly had to stop myself and go back to read. Everything is well written and photographed. I used to design how-to books for over a decade so I knew what to look for. Gorgeous and inspiring examples made me want to start playing around immediately! Now, if I weren't so dang terrified of my sewing machine! It taunts me. I COULDN'T RECOMMEND THIS BOOK MORE! Edit: Just be watchful of the binding. Mine cracked completely away from the spine within 24 hours of getting it. That's not a reflection on the content of the book, but on the print house that manufactured it. 0 of 0 people found the following review helpful. By Grandma and Grandpa Magnificent book and author and her DVD is amazing!

Learn to ask "What if?" and produce your own symphony of line, color, texture, and value

When I think of Sherrill Kahn, two things come to mind: don't miss out, and five star author. Sherrill holds nothing back. You get the full package, and boy that is one package. If you only buy one mixed media book this year, it should be this. The front cover is wonderful and it does not disappoint inside. This is not one of those books where the publisher picks the only good piece of work and sticks it on the front cover. All of Sherrill's work is amazing. What this book has is many techniques that you will find so useful in your mixed media projects. Inspiration by the bucket-load, easy to follow instructions, superb photographs, new techniques, new ways of doing things, fabulous colorwork, incredible composition, beautiful, inspiring pages with great galleries and so much more. Highly recommended for all creative artists. --Karen Platt, craft book reviewer About the Author Sherrill Kahn has taught nationally and internationally for stores, conferences, guilds, and educational institutions. She owns Impress Me, a rubber-stamp company; has produced six fabric lines for Robert Kaufman Fabrics; and has written numerous magazine articles.
