I had been searching for slouchy hat patterns that were not too complicated, fashionable, and the patterns called for yarns that were easy to find. Pretty yet practical. Nice range of patterns, so all folks from beginners on up to expert won't be intimidated or bored. The photos and layouts are gorgeous. Only downside is I wish it had a spiral binding, but I can deal without it.14 of 14 people found the following review helpful. I love Crochet BoutiqueBy Darlene RobertsI am really enjoying this book. I have crocheted three Slouchy Beanies, three Bonnie Berets, a Sunburst Beret, a Bubble Beret, and two Button Clutches already. I have had the book for about two weeks. I plan to make several more items from Crochet Boutique. The patterns are easy to follow, quick to finish

and very stylish. My girls love the hats. It is easy to reduce the size to fit my little girl. 3 of 3 people found the following review helpful. Wow! By Linda C. I LOVE this book, and all of the projects inside! Not only are the various projects stylish, hip, and suitable for a wide range of ages, the patterns are well written and easy enough for someone who is new to crochet. Even better, most of the yarns used in these projects are ones that can be easily found at your local craft store (I.e., Lion Brand Wool Ease Thick and Quick, Baby's First, Caron Simply Soft, Bernat Super Value, etc.). I was so excited to see what beautiful scarves, cowls, hats, clutches, etc., could be made using these easily-attainable yarns! I would wear/ use just about everything in this book---and I am a 43 year old mother of three little ones. Best pattern book I own. It's a gold-mine... I highly recommend it!

Sometimes the simplest accessories are the most stylish. That's true of the 30 delightful items in Crochet Boutique. Crocheters will love this fashion-forward collection, with such projects as hats, scarves, shawls, trendy bags, a laptop cover, a granny-square pillow, and a lovely shell afghan. With a short basics section, irresistible photography, and an informative stitch guide, Crochet Boutique is simply indispensable!

Rachael has a fabulous sense of style that shows through not only in her crochet designs, but also in the vintage pieces she selects for her Etsy shop. Crochet has made a huge comeback in recent years, so it's a lot easier to find pieces that appeal to you than it once was. It's certainly no longer just granny squares and bulky shapeless sweaters. -- FreshStitches.com Each of the patterns is clear and concise, with gorgeous full-color photo illustrations, and descriptions. There are projects here for every level of crocheter, and each project is labeled with one of three levels: beginner, easy, and intermediate. I loved the book...every page is chock full of beautiful colors and textures...the projects and patterns are so lovely! --Sarahndipities.indiemade.com If you're a fan of Rachael, it should come as no surprise that the projects featured within this book have a varied skill levels but use very simple, easy to acquire yarns that you can find at your local craft store. It's warm, inviting, comfortable, and effortless.
