Inquiring minds helpful hints with diagrams.By TempleGreat book with helpful stitches, instructions and will help anyone with a need for beginners know-how.If you like instruction you can follow - good choice. The picture diagram is out of sight.6 of 6 people found the following review helpful. Good IntroductionBy G. MenonThis book is a good introduction to crocheting and it is chock full of many interesting projects.The first few projects are simple enough, however the later projects are a bit more challenging, and I wish the book would have included illustrations of how to make the stitches in the trickier sections, as this would have been very helpful. I am still unable to take on many of the harder projects because of that. However, I still think this book is

a worthwhile buy, but I wouldn't recommend that a beginning crocheter rely solely on this book. 0 of 0 people found the following review helpful. Five Stars
By Barbara B. Great, beginner book for crocheters. Easy to follow directions and some cute fun patterns to try as well.
