4 of 4 people found the following review helpful. Squee! By S. Joseph The hats in this book are so adorable. Everything is made with bulky yarn, which makes them more like winter hats, but with the designs, it's most fitting for winter anyhow. The patterns are easy to follow. 7 of 7 people found the following review helpful. Be sure you order the correct book By Elsie C. Redington This is the American English version. Product description should be updated to indicate instructions are given using this terminology. 0 of 0 people found the following review helpful. Crocheted Animal Hats (for adults) By Kindle Customer I haven't tried any of the patterns, yet, but I certainly intend to. They are adorable looking and the instructions look like they are well written and clear. The photos are good and show most angles of each hat. No specialty yarns are required, at least none that I could tell, which makes the projects economical as well.
