Anne Thiemeyer, Magdalena Melzer : Crocheted Scoodies: 20 gorgeous hooded scarves and cowls to crochet before purchasing it in order to gage whether or not it would be worth my time, and all praised Crocheted Scoodies: 20 gorgeous hooded scarves and cowls to crochet:

7 of 7 people found the following review helpful. Cool constructionBy Suzanne R. ArnholtThe designs construction of these is very cool; however, none of the weights of the yarns used are given, and all have weird names. They look to be fast to make, but I hate to have to research yarn weights before I start a project. If you like hooded scarves, these provide more and different construction methods. Neat ideas and great color work. One thing I wish the authors had done was include the charts on the same pages as the project. Charts at the end are also a bit of a drawback for this work.4 of 4 people found the following review helpful. Glad I bought the book!By MitziI love the designs and already made two versions of the first one. But - I think the book could have use an editor and had a better lay-out.The fact that the yarns were discontinued/unavailable was immaterial. It's easy enough to find yarns that work.Bottom line ... I do like the book and glad that I bought it.5 of 5 people found the following review helpful. Five StarsBy Nancy K. CornellGood patterns. I made two. Both easy to follow, no mistakes.

'Scoodie' comes from the combination of the words scarf and hoodie and it is taking the world by storm! Magdalena Melzer and Anne Thiemeyer have created 20 scoodie designs that are not only fabulous fashion accessories, but their

chunky crocheted yarns will also keep both your neck and head wonderfully warm and cozy. The projects range from the classy and chic to the more casual and creative. With so much variety to choose from, you're sure to find the right style to suit you. There are only two sizes of crochet hook required for every design in the book; and all the projects are graded by difficulty, meaning that, no matter what your crochet ability is, there really is something for everyone. There is even a helpful step-by-step basic crochet guide and techniques for making pom-poms and tassels.

Scoodies are becoming more popular as they are so versatile and are a fantastic to keep you warm in winter. This book brings you 20 hooded scarves and cowls for you to crochet. You really can't complain about the value for money! The thing I like the most about this book is that each of the designs are different from the last. Using different yarns, stitches and colours they are all different. Each of the designs has a level of difficulty so there is something for every level of crocheter. At the back of the book is a how it's done guide including pictures as well as charts for some of the designs. The patterns are in written format and are really easy to follow. Some of the designs are more practical and some of the others are practical and huge fun. I love the idea of having different ones to go with different things in my wardrobe. They would also make fantastic gifts. I really like this book and it's one that I will be making a number of projects from. * Crochet Addict UK * 'Scoodie' is a combination of a scarf and hoodie and these 20 designs are fabulous fashion accessories, using only two sizes of crochet hook for every design. The chunky crocheted yarns will keep both neck and head wonderfully warm and cosy. The projects range from classy and chic to more casual and creative and are graded with something for everyone. * Machine Knitting Monthly * Before reading this book I was a total newbie to crocheting, I was looking for a book with projects to challenge my abilities and yet still be obtainable when I have no experience of the craft. There is a decent sized section of the book dedicated solely to explaining how to create the various stitches needed to make the crocheted scoodies. This is at the back of the book, so if you are more experienced you can simply skip this part and get on with making the glorious projects. The patterns really are exquisite, they use such a beautiful combination of colours and wools. Crocheting might have a reputation for being associated with an older generation but this book firmly quashes that myth, as the book remains modern and stylish with stunning photography throughout the book so that you can really get a feel for each of the designs before you decide on making one. This book is worth its weight in gold to me, as it has helped me create my very first crocheted item. I will definitely be making more from this book. Highly recommended! * Sarah Cooper * crocheted Scoodies 20 Gorgeous Hooded Scarves and cowls to crochet. I have been looking for a book like this for some time, I wanted patterns that were different and even a little "new age" and I certainly found that with this book. Magdalena Melzer and Anne Thiemeyer have come up with a fabulous new range of the now popular "Scoodie" they are all vibrant and chunky perfect to keep you warm in the colder months and also to accessorise and brighten up your own outfits. All of the patterns are done on two sizes of crochet, so you don't need/have to buy loads of different hooks. The basic crochet guide for beginners is at the rear of the book, though in my opinion you do need to have a basic idea of how to crochet before starting this book. That is me so I shall be trying them with great interest and enthusiasm. The patterns themselves are clearly marked with difficulty levels of 1 - beginner, then levels 2 and 3 as you improve your technique. There is also a useful section on how to make Pom Pom and Tassel accessories for your creations! The book itself is a practical size, with loads of colourful photos to draw you in, each pattern has been given a cute theme name like "rockabilly" "Ice Age" and so on with adds to its overall charm. This book gets a big thumbs up from me - so I'm off to improve my new hobby! * Carole Hiscock * I was excited to get this book and it hasn't let me down! First of all for those that haven't come across these before, they are basically a combination of a scarf and a hoodie. The book consists of pattern for 20 hooded scarves and there is a level of difficulty for each design. Each Scoodies is crocheted with no more than 2 sizes of hooks. I think the book is an excellent purchase for beginners or more advanced alike. I would highly recommend it to anyone who who love to make these beautiful hooded scarves! * Fiona Marshall * This is a great book for both experienced crocheters and beginners too. It has 20 patterns for different scarves/snoods/scoodies/hats/cowls in it. Each pattern is shown using beautiful colour photos of the completed product and different styles to wear it. Each pattern has plenty of information and detail including a difficulty rating and all measurements and clear instructions. At the back of the book there are pattern charts for each style. It also has a section at the back showing how to do the different styles of crochet - all illustrated to make following the instructions easy and simple. I am excited to try making some of the items and I think they will make excellent handmade christmas / birthday gifts. * Ellie Spider * Beautiful designs, with very clear instructions and pictures. Ideal for all levels of crocheting. I would have liked to see an alternative to the wool used, ie double, chunky, but that's a personal thing. This is a great book for everyone. * Susan Lee Weddell * What an amazing book! Fantastic ideas featuring an amalgamation of scarves and hoods. Sensible and warm, but oh so attractive and fashionable at the moment. Everybody wants one! There is enough material here to keep crocheters of all abilities happy for a long time producing a wonderful array of useful garments. Presents taken care of for a long time, that is, if you can bear to part with them. The presentation is excellent, with clear photographs. Instructions are graded to the abilities of the crafter. They are quick to make and easy to construct and there is a wealth of choice. For the more experienced crafter, there are ample opportunities to blend yarns from the stash together to make truly unique items and also great opportunities

for the hand spinner to use those fabulous "one offs" of small quantities which often languish in the bottom of the yarn basket for want of ideas. The graphic "how to" instructions at the back of the book are clear and easy to understand. In all, a great book for all levels of skill. I love my copy and looking forward to the next edition! * Jenny Pritchard * I was fortunate to win a copy via a twitter giveaway, Myself my daughter are always looking at fun craft activities to do on a wet day so receiving a copy of crocheted scoodies was great. We have never attempted to Crochet before and found this book perfect for a beginner the instructions are so easy to follow. We are still in the learning phase but will hopefully be able to complete a pattern and make our own Scoodies very soon. * Kelli Flanagan * What a fantastic book. As a complete crocheting newbie, I was a bit worried at 1st, as to whether all these patterns would be completely above me. With 20 different patterns there is something for every level. Love it!! * Sam Cornford * A lovely collection of hooded scarf and cowl crochet patterns. It has nice photos of all the scoodies and they're all such nice vibrant colourful shades. There's so many that I can't wait to make and it'll be made easier by the clear and easy instructions provided. My favourites are evergreen, blue velvet mix and match and rockabilly (with its cute cherry red bow). Would definitely highly recommend this book!! * Jamie Peters * This book is unique in that not only are the designs contemporary but are also refreshingly wearable and serviceable whilst still making an amazing fashion statement. They are going to be the item of the winter season and these designs are up there with the best! * Mary Peberdy *About the AuthorAs a child, Magdalena Melzer loved to spend hours sewing colourful buttons and developing her love for craft and creativity. When her own children arrived, Magdalena rediscovered crocheting again and the magic of brightly coloured yarns. In 2012, she launched her own label, Curlyz, a small enterprise with a grand passion for designing and crocheting using diverse colour combinations. In every free moment, you can be sure to find her crocheting between mountains of wool, surrounded by many colourful crochet creations. She lives in Stuttgart, Germany. Anne Thiemeyers love of needlework began when she was a child when her aunt taught her crocheting, knitting and embroidery. Today she has turned her hobby into a career. After completing her studies in textile design, she worked in various editorial departments, while specialising in her favourite craft crochet. Since 2000, Anne has worked as a freelance designer and consultant for various publishers and yarn suppliers. She lives in Stuttgart, Germany.
