Inside, that picture is there, but it is a large project. There are smaller projects but they do not have the beautiful detail. The cover project is certainly the best one in the book. Also, I don't care for little children or chubby fairies. There are children in here and they often look like gnomes. If you love children fairies, chubby fairies, and gnomes, this is the book for you. There is a section on birthday fairies which is a "fairy of the month" that is pretty. Those projects are fairly short - done in an evening or two. Another section has alphabet fairies which is also cute if you like that sort of thing. The fairies have beautiful wings, but no faces. There is a fairy godmother which resembles a stereotypical grandmother with colorful layers of clothing. It is a country style similar to Mary Englebreit. There are also seasonal fairies and silhouettes. I love seasonal

projects, but I don't care for these. Now there are some wonderful things in this book to balance it for me. Each project has a list of supplies needed for the project shown. The introduction is very good with lots of information and there are helps in the back to show the different techniques. Other kinds of projects are shown as well. For example, the fairy godmother project has a border around it that makes a great bookmark. Gift tags, sachet bags, cards, tooth fairy pillow, memory album, bell pull, towel band, drawstring bag, decorated notebook, pencil holder, purse, napkin holder, paperweight, coaster, and others. The techniques for these are in the book and you could use any cross stitch pattern for any of these projects. I was hoping to find a beautiful fairy bookmark, but even though I didn't find it in this book, I still found a few other items that I will use. 0 of 0 people found the following review helpful. Cross Stitch Fairies by Joan Elliott By Customer This too is way more than I ever expected. The designs look so real you feel like they are going to jump off the page and join you. The color and imagination are fabulous. I love working on fairies because the colors used and the way they are used are exceptional. Again Joan Elliott has gone way above and beyond. 0 of 0 people found the following review helpful. Great Book By Arilla Vera Great book, would definitely recommend.

A delight for fairy fanatics--over fifty fabulous designs to enchant cross stitchers everywhere. It has been said that "fairies are not seen by the eyes but by the heart." The popular cross stitch designers invited to contribute their designs to this book have used their imagination to capture the qualities of the wee folk in this magical collection of fairy designs, to delight and inspire stitchers of all abilities. Enchanting project ideas range from bags to banners, cards to cushions and pot lids to pictures, with full color charts and step-by-step instructions for making up.

About the Author The book features the work of Joan Elliott, Lesley Teare, Claire Crompton, Maria Diaz and Lucie Heaton, all of whom are popular cross stitch designers and regular contributors to the needlecraft press.
