0 of 0 people found the following review helpful. A whole purse set!By BarbaraLynWhat do you find in a gal's purse? Why her glasses case, cel phone, check book, address book and credit cards. What do all of these have to do with this book? Why you can make a whole ensemble!! Make one or all of these projects and they are easy as they are made from felted wool or as we called in 50 years ago FELT.With no edges to worry about turning under to prevent raveling, they go together quickly and easily. The assembly instructions contain graphics which are a blessing to those of us who are visual people. The graphs for each design comes with a color photo of what it will look like when done and some of the graphs themselves have color outlines around the areas that have the same color which other graphs have red lines defining each section. Either way, they are large enough to see without a magnifying glass. (I have to

say I am partial to the graphs that have the color!)The cell phone holder is something that I plan to make as Christmas presents while I just might find time to make myself a whole ensemble! Which ever project(s) you decide to do, the book will be a wonderful guide to get you there.
