It just took longer to getBy judy sopkoExcellent book. It just took longer to get. I thought I was getting it on the 10th and did not get it until the 25th. Already enjoying the book, started a project the same day.0 of 0 people found the following review helpful. Great BookBy ScotlassI bought this book so I could participate in a stitch-along using one of the designs in the book. It has many other interesting designs that I may also do. It also shows different ways to use the pieces or to stitch just portions of the designs so that everything doesn't have to be framed.

Gifts for friends and family abound in this new collection of cross stitch designs. It features all the styles for which the author is renowned, such as Celtic, Native American and oriental, as well as some of her whimsical teddy bears.
