Nicholas Culpeper : Culpeper's Herbal Remedies before purchasing it in order to gage whether or not it would be worth my time, and all praised Culpeper's Herbal Remedies:

22 of 22 people found the following review helpful. Not what I expectedBy InTheGreenI bought this book because it only cost \$3 and thought "you can't go wrong with that". Oh, but you can. The book itself doesn't seem so bad if you've never seen Culpeper's material before. The illustrations are nice, it contains a compact materia medica. But it

turns out this book is another author's snippets of Culpeper's material, with only a fraction of the herbs mentioned, a small verse about the herb from Culpeper (not even close to the entire description you'll find in the original manuscript), and a "modern" use paragraph from the new author. I'm so disappointed, I'm actually returning it, even though it's so inexpensive. It will be of no use to me. There are a couple free online versions out there, and I suggest reading one of those, or spending the extra money on a book that actually contains the full material. 1 of 1 people found the following review helpful. Great Resource By SPullen I have always wanted a Culpeper's Herbal, both for the herbal lore and the historical value and am enjoying it 0 of 0 people found the following review helpful. Three Stars By Lady Abigail But not too impressed

Great resource.
