Edmund V. Gillon Jr. : Cut Assemble Victorian Houses (Cut Assemble Buildings in H-O Scale) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cut Assemble Victorian Houses (Cut Assemble Buildings in H-O Scale):

In the past year I have been able to find both new and "used" kits (not really used, the kit has gone on to other people than the original owner). The VICTORIAN HOUSES kit contains 4 differently styled Victorian houses plus fences in detail. Not difficult, I would rate this as "moderate" level. I use Aleene's Original Tacky Glue rather than "white glue" as the latter is slow acting

and can warp paper. I was worried about some of the fine detail in porches but I have enough experience to be able to do everything well. Recommended are the Carousel and village kits, these are also well designed and fun to make, if you are like me and enjoy using your hands to make little buildings. I don't really have a use for these things, so when done I pass them on to local children. I use many tools and take my time, for me cutting, folding, and gluing are calming processes and I have been proud of these little creations. Hope you enjoy it too! 5 of 5 people found the following review helpful. Very cool! By Phillip A. Foster The book contains colored patterns you can cut out and use for a HO train layout, or you can make copies that you can color yourself. I used a cad program and now I can print and color them differently. This is a great book with easy to use instructions. Well done! If you enjoy making models, this is the book to get. 0 of 0 people found the following review helpful. Five Stars By Toots Nice design. Fun to build

Printed in full color on heavy cardboard stock 4 authentic Victorian houses in H-O scale: Italian-style villa, Octagon, Second Empire, Stick Style. Exploded diagrams, numbered and labeled pieces for easy assembly.
