Tom Angleberger : Darth Paper Strikes Back (Origami Yoda #2) before purchasing it in order to gage whether or not it would be worth my time, and all praised Darth Paper Strikes Back (Origami Yoda #2):

4 of 4 people found the following review helpful. Lots of giggling and excitement for this book By Jennifer L. Rinehart This is a review from a kid and his mom; I liked how Harvey was really evil, like Darth Paper evil. And also how all the girls, when they saw Harvey's Darth Paper Origami they said, 'oh, he's so tiny! Can you make me a pink one?' This book is pretty funny, but also, there is an adventure here because they have to try and save Dwight. Yoda said, 'make a new case file you must, the only way to save Dwight, that is.' Yoda is in this book in each chapter and he

gives advice to people that is really cool. People should read this book, but they should read the first book, first, it is called *The Strange Case of Origami Yoda*. People should also read this because it is the second book in the series and it is kinda like a diary, only they call it a case file instead. The main thing that they have to do is they have to save Dwight from going to some school for really, really, really bad kids. Tommy, the main character, thinks he might get beat up there, which would be super awful. Mom's review; I kept walking past his room, smiling because I heard him giggling as he flipped the pages. There was no whining about playing a computer game or watching TV, he was pretty content to lounge in bed, reading. I don't think he's had this much fun reading a book since he read the Percy Jackson series. Definitely worth buying this in hardcover instead of borrowing it from the library, because he's read it about three times now. Some other books he's liked, just to add a little perspective, Gregor the Overlander, Holes, George's Marvelous Medicine, The Spiderwick Chronicles, Harry Potter, Captain Underpants, Bionicle books, The Wizard of Oz and Garfield comics.

2 of 2 people found the following review helpful. From 12 Year Old Fan!
By L. Great Book! Didn't expect it to be a Special Edition, which it is. It is different from the Original Origami Yoda Books - it has extra Origami Instructions in the back to show you how to draw your own Darth Vader. It is also the newest Edition -- 2015. Nice book for my Origami Yoda Collection -- I love it.

1 of 1 people found the following review helpful. My daughter LOVED it! We are enjoying this book now
By Brian Flannery My 2nd grader's (7 year old) teacher read the 1st book in the series in class. My daughter LOVED it! We are enjoying this book now. We will also be purchasing the rest of the series! Very fun for anyone and it'll make you a Star Wars lover!

The hilarious, clever, and much-anticipated follow-up to the breakout hit, *The Strange Case of Origami Yoda*! It is a dark time at Ralph McQuarrie Middle School. After suffering several Origami Yoda-related humiliations, Harvey manages to get Dwight suspended from school for being a troublemaker. Origami Yoda pleads with Tommy and Kellen to save Dwight by making a new case file one that will show how Dwight's presence benefits McQuarrie. With the help of their friends, Tommy and Kellen record cases such as *Origami Yoda and the Pre-eaten Wiener*, *Origami Yoda and the Exploding Pizza Bagels*, and *Origami Yoda and Wonderland: The Musical*. But Harvey and his Darth Paper puppet have a secret plan that could make Dwight's suspension permanent . . .

About the Author Tom Angleberger's *Strange Case of Origami Yoda* was hailed as delightful by the New York Times and called the most original novel of the year by the Boston Globe. Angleberger is also the author of *Horton Halfpott*. His website is OrigamiYoda.com. He lives in Christianburg, Virginia, with his wife, the author-illustrator Cece Bell.
