Melody MacDuffee : Decorative Wire Findings: Make Custom Clasps, Connectors, and More before purchasing it in order to gauge whether or not it would be worth my time, and all praised Decorative Wire Findings: Make Custom Clasps, Connectors, and More:

16 of 17 people found the following review helpful. Good designs, super sloppy workmanship! By TrinaWow, where to begin. First, let me say her some of her design ideas are great. I would've preferred the basics section at the very beginning, not the end. Kind of annoying to keep flipping to the back of the book. In almost every picture, messy, badly marred, inconsistent sized loops, wire ends not flush cut, I could go on and on. I personally wouldn't say to use a scrap piece of wire for a main component. You don't have to use high priced wire for every piece but I make sure to straighten my wire, mark my roundnose pliers for consistency, and coat my tools with tool magic! 5 of 5 people found

the following review helpful. Beautiful jewelry ideas but instructions could be better. By Bayside Babs Beautiful jewelry pieces and ideas, but the instructions could be a little more extensive and clear. Saw this book and its author on JTV for considerably more money and glad I bought it on for much less. 2 of 2 people found the following review helpful. I liked Melodee's other book and this one didn't disappoint By Frenchiesu I liked Melodee's other book and this one didn't disappoint. The instructions are easy to read and I was able to make the pieces and my own without much trouble. Thanks!

Wireworkers will create 23 truly one-of-a-kind jewelry pieces by learning to make decorative findings! Each component is made using nothing but wire and simple hand tools and wireworking skills. Beginners and intermediate jewelry makers alike can make these intricate, beautiful creations using looping, coiling, and intertwining techniques. These customized jewelry components including strand separators, connectors, chandelier earring components, and more are destined to become the focal points of the jewelry they adorn. Plus, wireworkers will learn to make a gorgeous jewelry project that uses each component.
