Diane Fitzgerald : Diane Fitzgerald's Favorite Beading Projects: Designs from Stringing to Beadweaving (Lark Jewelry Beading) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Diane Fitzgerald's Favorite Beading Projects: Designs from Stringing to Beadweaving (Lark Jewelry Beading):

0 of 0 people found the following review helpful. Very good book for a certain group of beaders
By skylark I've been a fan of Diane's for a very long time and own all her publications. She is the best "directions" person around. I am not sure if I was expecting a different slant in this book or I was looking forward to the challenge of Diane's style of work but it wasn't a good fit for me. Without a doubt this book would be excellent for the beader who has mastered basic stitches and wants to explore treatments ... no one can get you to that place any better than Diane.
2 of 2 people found the following review helpful. Terrific book!
By Sandra Resnick There are so many projects in this book that I want to do. And they are so different from each other. Unlike some other beading books, these projects use a variety of techniques so it's a good sampling of bead projects but they are not so simple that they are boring nor so complicated

that they are unachievable. And I love the button doll! Not every project has to be challenging, sometimes they can just be fun. That's a terrific project to do with kids. 0 of 0 people found the following review helpful. A well-done book for beaders with experience. By Racerkat Diane Fitzgerald writes very good how-to jewelry making books; unfortunately I usually buy them because they are beautiful and many of the patterns are beyond my expertise. But when I find one I feel competent to attempt it usually works out very well. Some very fancy, complicated designs, but with enough easier patterns to for me to justify the book. Veteran beaders will be very happy with this. The supplies range from moderate cost to higher end.

Diane Fitzgerald presents 24 of her very best, never-before-published beadwork projects! These favorites are drawn from Diane's 20-plus years of creating and teaching and highlight her signature style.

"These projects represent the very best of Diane's extensive technical knowledge when it comes to crafting beaded jewelry. There are knotting projects, beadweaving projects and assemblage projects that use some basic wire skills to create. Not all of the projects are technically challenging for an advanced beader, but they are most inspiring. In the Buddhist tradition of getting back to a 'beginner's mind,' some of these projects will provide a wonderful and welcome break when you just want to bead something beautiful. If you want to expand your general jewelry-making skills to include work with fibers, fabric, and knotting, this is the book for you. Diane has really allowed herself to develop as an artist over the course of her career, and this book is a delightful compilation of all the skills and techniques she has mastered along the way. For any serious bead artist looking for something new to try, Diane Fitzgerald's Favorite Beading Projects will provide hours of enjoyable beading projects." - Jennifer VanBenschoten, Van Beads
