Deborah Jones, Zieman Nancy : Dimensional Machine Embroidery: 10+ Specialty Techniques for Amazing Results before purchasing it in order to gauge whether or not it would be worth my time, and all praised Dimensional Machine Embroidery: 10+ Specialty Techniques for Amazing Results:

14 of 14 people found the following review helpful. Watch where you buy By Betty Pegram I love the book, But watch where you buy the book from. I thought I was getting the book and DVD , the book was in excellent shape but the DVD was missing. I tried to contact the owner of the book shop but they would charge me shipping and a return fee which was more than the book. So I have a book I really can't use. I would suggest be very careful of where you buy books. I use when ever I can. 4 of 4 people found the following review helpful. Some interesting projects By Suzanne Sarasin I read the book, cover to cover and honestly doubt if I will complete any of the projects. They just are not

something that would go with my decor, but the processes might help on some other future projects. I did get the CD with the tutorials and designs. I might use the designs in different ways. 6 of 6 people found the following review helpful. a must have for machine embroidery enthusiasts By Txdrling the CD is just a bonus, thank you, love it, the book alone is worth the price excellent information, easy to follow especially love the shadow work by machine section, more more more

Add a whole new dimension to your embroidery! In *Dimensional Machine Embroidery*, learn to enhance your machine embroidery skills with specialty techniques that make your work beautiful to the eye and amazing to the touch. Come to life with traditional and raw-edge applique, trapunto, wing needle and shadow work. With clear step-by-step instructions and handy tips and tricks for each technique, you'll be rewarded with beautiful and professional-looking results. Inside *Dimensional Machine Embroidery*, you'll find: 11 dimensional techniques to learn and master, with accompanying projects: elegant lace coasters, a cozy embroidered elk blanket, a funky giraffe footstool, and more! A CD containing 18 digitized designs from the projects, as well as bonus designs for the wing needle and shadow work techniques. Recommendations for specific fabrics, stabilizers, needles and notions to use with each project, for spectacular results every time. Notes from Nancy: expert advice from sewing and craft expert Nancy Zieman sprinkled throughout the pages. Why settle for flat embroidery, when you can create delicate lace and shaggy fur? All you need is your digital embroidery machine, and Deborah Jones showing you how!

About the Author Deborah Jones is a 36-year veteran of computerized embroidery. In 1997, she was the third recipient of the prestigious Floriani Lifetime Achievement Award for embroidery education. A frequent speaker at industry trade shows, Deborah writes for several home and commercial embroidery magazines.
