Leisure Arts : Dishcloth Dresses before purchasing it in order to gauge whether or not it would be worth my time, and all praised Dishcloth Dresses:

The book is small enough to slip in a small bag with yarn and needles and go any where. I love portable projects! The little dresses are too cute. I'm not sure which to start with. The instructions and patterns look very clear and just enough variety of stitches and color changes to keep me interested. Cotton yarn can be purchased everywhere. My guess is a long car ride or a few hours waiting forwhatever....and I will have one made. I usually do not go for this kind of Ketch but I think these make fun gifts for anyone. You can't look through this book and not smile! 10 of 10 people found the following review helpful. Love it! By MEEKMARY I have made several patterns and used them for gifts. Folks love these! They are cute, fun and useful. Highly recommend this book. I make the "dresses" put them on bottles of dish soap and have great gifts! (Recommend you note the color of the kitchen where it is going and knit accordingly!) Dishcloth Dresses 0 of 0 people found the following review helpful. Five Stars By Customer good book
