In this spin-off from the best-selling book Drawing Lab for Mixed-Media Artists, where Carla Sonheim offers a year's worth of projects and techniques, this convenient kit provides everything that you need to begin drawing playful and inspiring sketches. Drawing Lab Kit includes: A resourceful 32-page full-color instructional book packed with ideas Fine-line permanent black marker Large black chisel-point marker Mechanical pencil Soft charcoal pencil HB pencil Set of 3 colored pencils: yellow, blue, red 8 blank sketchbook pages in the back of the book

"Who wouldn't love a kit that says right on the front: "A Fun and Silly Art Kit"! That's exactly what Carla Sonheim's Drawing Lab promises. And it doesn't disappoint. Carla's all about making marks, so you'll find a variety of pencils and pens with which to make them: Fine-line and chisel-point markers; mechanical soft charcoal and HB (hard lead) pencils, as well as red, yellow and blue. And the kit includes a 32-page instructional book with 8 blank pages for sketching and notes. It is the book that is the treasure. It takes the essence of Carla's popular workshops and distills them down to a series of assignments and projects that will help you draw more confidently and have a wonderful time while increasing skills." - Judi Kaufman- Scrapbooking.com
