Personally rewarding / Excellent qualityBy mapleA friend of mine gave me a copy of "Knit, Purl, Pray" for Christmas and I really liked the author's inspirational (not preachy!) authentic story telling style of writing. When this book popped up, I figured I'd treat myself and a friend to a copy. I've been hearing a lot about mindfulness and thought I could get a dose of inspiration, along with practicing something new, creative easy. Well, it's become a lovely rewarding part of a lot of my days. And I want more!1 of 1 people found the following review helpful. Five StarsBy Nina G ShultsLove the book.
