If your a beginner and an expert you will find something in this book. I am a beginner jeweler and have been doing only projects that are sent to me monthly with everything I need to do it. I have decided that it was time that I try to create my own work. This book was the best purchase. Even though it is set up with instructions you can still put your own flair to it. I am working on my first piece and I feel pretty good about the choices I made. As far as the shipping on this book I was amazed how fast it came even after I figured out the next day that it was coming from the UK. I panic a little and thought I was going to get the book in 6 months. I actually got the book 8 days later. I was very happy and will put this company in my top 5. And you should too. More than I expected. I am very pleased to have purchased it. I create sell my own semi precious stone jewelry, in this book, I found some techniques that have helped me in what I do. With my new designs I have already started to make more profit than I had ever made before. Thank you.

I checked this book out at the library before deciding to buy it, and I'll definitely buy it. I've been beading for 5 years now and this is the first book I've seen that has designs in it that are my tastes. Another fun thing about this book is it has a section on victorian-style jewelry with antiqued brass and filigree wrapping. The book has beautiful pictures and easy instructions. I highly recommend this book!

From the novice beader who is just learning to string a bracelet to the experienced jewelry-maker who is already out selling and teaching the art to others, everyone can find something to love on the pages within. Experienced jewelry designers Susan Ray and Sue Wilke walk you through the basics and then launch into a plethora of engaging jewelry designs for you to replicate. Along the way, they offer tips and tidbits to make your beading experience as enjoyable as possible.
