I'm practicing with simpler things because I've always made much simpler jewelry. But I love the delicacy of the way this kind of wire work looks, and am determined to master it. I have not found a better guide.0 of 0 people found the following review helpful. I will be ready for Rosemary Hill's classBy mtayl75234I'm very excited about this book. I will be taking a class from the author the first quarter of 2016 so I want to be ready for the class.0 of 0 people found the following review helpful. Good IdeasBy Joan M. MorganI am getting good ideas from this book. And will learn some techniques as well. I am not likely to make an exact copy of something in this book but that is OK.

With a mix of convenient materials and an imaginative approach, this creative compendium will appeal to jewelry makers of all levels. Highlighting 25 modern wire, bead, and fiber jewelry designs, the projects include numerous knitting, crocheting, and felting techniques. Materials and tools are also outlined, encouraging the use of basic methods. From knitting copper wire and mixing it with contrasting beads to crocheting linen into fiber hoop earrings or an elegant scarf necklace, this collection will never fail to inspire. Felting techniques are also explored in detail for creating wire-caged beads, wide-cuff bracelets, and rope necklaces. Special sidebars and tip boxes throughout ensure success with every project.
