The biggest down-side to it was the black and white pictures and some what dated information about base bras etc. Should their be a revision/ new edition I would gladly purchase. Great tool to use in conjunction with online tutorials and current trending techniques; the resource page inside the book was also immensely helpful.Seller was honest and would buy from them again.0 of 0 people found the following review helpful. Much shorter than expectedBy Barbara A. DrescherThis is more of a booklet than a book, otherwise

I'd probably give it 5 stars. It's very, very short. That said, I could find nothing else like it on the market. The instructions are clear and there are plenty of pictures.
