Helen Dardik : Embroidery for Little Miss Crafty: Projects and patterns to create and embellish before purchasing it in order to gage whether or not it would be worth my time, and all praised Embroidery for Little Miss Crafty: Projects and patterns to create and embellish:

0 of 0 people found the following review helpful. 11 year old loves this bookBy CCMAfter my daughter checked this book out multiple times from the library, I decided to finally buy her a copy she could keep. She first read this at 10, and was easily able to duplicate many of the projects on her own without any assistance from me. Instructions were easy to understand and execute. Great beginner book!0 of 0 people found the following review helpful. Five StarsBy Me'urramya CederstromGreat projects to do yourself or to teach your little friends with.0 of 0 people found the

following review helpful. Awesome!!By dawn c.Awesome!! Love this book!

The first title in this Little Miss Crafty series features the latest hip trend in the craft world embroidery! What makes this book different than all the rest is the way its tailored for young readers; easy-to-use templates for each design are included and step-by-step illustrations make every project fun and simple. Creative ideas for freehand designs and tips on customizing clothes, gifts, and room dcor also are included. Stitching has never been easier or sassier!

From School Library Journal Grade 4-8 A lively combo of color illustrations and photos will appeal to girls looking for a cool introductory book on embroidery. From the short, encouraging introduction to the brief but adequate descriptions of tools required and discussion of choosing colors, young crafters will be equipped to embark on an exciting and challenging hobby. Much thought and planning went into the book's design and arrangement. Basic stitches to be mastered are illustrated and explained clearly. Adult assistance will most likely be required as there are many skills to learn and master measuring, sewing, pinning, cutting, and transferring patterns. Each project has a color photo, step-by-step full-color instructions, and many helpful tips. The assortment of projects will encourage girls to pursue this craft. Back matter contains 48 templates and instructions for using a window to transfer designs, basting, and using carbon paper. This welcome addition will supplement Judy Ann Sadler's *Embroidery (Kids Can, 2004)*. Augusta R.
