It is a embroidery stunpwork book with strong England style. Without formality, England-dimensional embroidery is different from the traditional embroidery. It is a new free embroidery and design. It is a production process of enjoyment loved by young women. This book introduces nearly 40 kinds of embroidery works, like interior leaf oxtongue and carry-on bag with dandelion pattern, cushion with bee and thistle patterns, photo frame with baby-car, handbag with tulip pattern, teapot set with fruit and flower patterns and hanger and sachet with small flowers and so

on. For every style, there are beautiful pictures and detailed production steps for different levels of embroidery enthusiasts. Most of embroidery patterns are from those common flowers, birds and fruit in daily life. Decorating them on storage bags, hats, placemats and backrests even hangers used in daily life, fully shows the exquisite and elegant of quality life. Meanwhile, tools and basic skills which would be used in embroidery are all explained in great details.
