### Mary Mulari : Embroidery Machine Essentials - Applique Adventures: Companion Project Series: Book 6

before purchasing it in order to gage whether or not it would be worth my time, and all praised Embroidery Machine Essentials - Applique Adventures: Companion Project Series: Book 6:

9 of 9 people found the following review helpful. PROJECT IDEAS - No instructionsBy Sandy GoshornMary Mulari does beautiful work. The books shows that, however nice the photos may be, we need a book that TEACHES US HOW!! Something this book lacks. If you're looking for project ideas, this is the book for you.If you're a beginner looking to learn HOW to do these projects, look on, this is NOT the book for you.I was very disappointed because I expected more.1 of 1 people found the following review helpful. This whole series delights!By SkyeisleI may not have

each and every book in this series but each I own is a great resource for tips, ideas and techniques. All are well done, colorful and extremely helpful. 3 of 3 people found the following review helpful. embroidery machine essentials- applique adventures By Betty Pegram This is another great book in the series. Fun designs. Projects are appealing and look easy to do. It is well written . I would recommend this book.

This exciting new book gives embroidery machine owners more opportunities and techniques to make the most of their investment. The detailed instructions, tips and impressive designs in this book help sewers and embroiderers enhance their skills, create beautiful garments and gifts and optimise the use of their machine. This book: instructs readers how to use their machine to make beautiful applique designs for quilts, garments and paper gifts; hits on the new products and methods embroiderers and sewers can use to ensure success with every project; and features a colour gallery with examples sewers and embroiderers can use as inspiration for new designs. A great value for the price, this book will expand machine embroidery owners' skills, confidence and appreciation for their hobby.
