HelpfulBy MurlynVery useful for a beginner1 of 1 people found the following review helpful. Good bookBy MeIGot2Bthis book had just enough information in it to get myself in trouble. While I would not consider it to be a Machine Embroidery Bible, it addressed a lot of things that someone new to machine embroidery would like to know. The book is a bit dated though, because many of the links in the reference section

were dead. But there are now so many other sites out there it is not a huge deal. Also, check out iTunes, there are quite a few embroidery apps out there - who knew?!

Taking the guesswork out of using a home embroidery machine, this book covers the entire embroidery process from choosing designs, threads, stabilizers and needles to hooping, design placement and stitching techniques. A free CD-ROM is contained featuring six designs.

"A comprehensive guide, and inspirational showcase..." -- Vogue Patterns, October 2001. "An inspirational showcase with helpful troubleshooting section..." -- Sewing with Butterick, Winter 2001. "A comprehensive guide. an inspirational showcase..." -- Vogue Patterns, June 2002 and again in December, 2002. "An inspirational showcase with helpful trouble shooting section" - Sewing with Butterick, Summer 2002 and again in Winter 2002.
