They look so festive and will surprise the recipients with their initial on the front of the card. Have made my own cards for a few years now.2 of 2 people found the following review helpful. just okBy TJAs much as I love embroidering on paper, the books have always disappointed me. This one is no exception. It is just an ok type of book. Some of the designs in it seem a bit dated. And what drives me insane is how small it is. It is under 50 pages. I think next time I'll do an internet search for free patterns instead of purchasing another small pricey book.1 of 1 people found the following review helpful. Great book!By PamHave used the alphabets again again. Great

designs. Highly recommend. Joke De Vette is one of my favorite designers. I would buy any book from this designer.
