Quite a lot of technical information so need to be in the mood to read, but very helpful3 of 3 people found the following review helpful. Staple for enamelistsBy Pamela S TimmThis book is a stapel for many enamel students. It is easy to understand. Although it is copyright 1984, several coveted enamel artists'

works are represented in the book (i.e. Marian Slepian and John Paul Miller to name a few). Wonderful for reviewing technique and an inspiring amount of projects included.0 of 0 people found the following review helpful. Good book.By Cynthia W.Arrived quickly and as described. The book is okay. I was a little disappointed but for the price it was an okay buy.

Everything you'll need to know to enamel on silver, gold, copper, aluminum and other metals. From preparation and application to firing and safety precautions. Techniques covered include graffito, cloisonne, grisaille, plique-a-jour and more.
