CarrThis is a fabulous book--I am a needlepointer for the most part but have been branching out a bit into cross stitch and these designs are just beautiful. The charts are clear and easy to follow and the color pictures accompanying each product are lovely. The book itself is a joy for any needleworker, and I can also easily see it being a huge inspiration for artists of any kind. Can't recommend too highly!10 of 10 people found the following review helpful. A Variety of PatternsBy A

CustomerIf you like variety then this book is for you ! It has birds, flowers, kids, kitchen items and even Santa. I really like the way the books is laid out. the patterns are easy to read and in color. Most patterns in this book are large. Finished patterns are shown done on pillows, wall hangings, book covers, and frames. There is also a castle (as pictured on the front cover) that I can't wait to get started on ! Too many projects - not enough time ! I think that any cross stitcher would enjoy working the patterns from this book.1 of 1 people found the following review helpful. Four StarsBy CustomerThis is a really nice cross stitch book.
