G. D. Hobson : English Binding Before 1500 (Sandars Lectures) before purchasing it in order to gage whether or not it would be worth my time, and all praised English Binding Before 1500 (Sandars Lectures):

Originally published in 1929, and based on The Sandars Lectures for 1927, this volume provides a historical study of English binding. The text is divided into two main sections: the first covers the period up until 1300; the second focuses on Gothic bindings creates between 1450 and 1500. A generous appendices section is also included towards the end. Beautifully presented, and containing a large number of illustrative examples, this is a fascinating book that

will be of value to anyone with an interest in bibliography and medieval English history.
