**A. L. Elder : Essential Oils: Handmade Gifts: Recipe Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised Essential Oils: Handmade Gifts: Recipe Book:

1 of 1 people found the following review helpful. Four StarsBy CustomerLots of great recipes. It's helpful for learning different ways to use my oils.1 of 1 people found the following review helpful. Four StarsBy Angela CaskeyThis is a good read if you are learning about essential oils.2 of 2 people found the following review helpful. In other wards this book rocks!By path66002I definitely enjoyed this book more than the other one. Not as much chatter in here. Recipes are interesting and are a must try on a lot of them. In other wards this book rocks!

When I discovered essential oils, my main use for them was cleaning our home. I concocted my own cleaners and even laundry soap! The next phase in my essential oil journey was to stock my cabinet full of Oh my goodness, I forgot today was gifts. So far, I havent missed a single accomplishment, and the gifts I share have been handmade by me. Theres something special about handmade gifts. They are made with love and of course, essential oils! Each recipe included in this book I would rate at beginner level. I am a 20-minute project girl. I have very little patience, and sometimes even less time to spend hours upon hours in the kitchen. When I am not writing, working full time or sharing my love of the oils; I am in the kitchen making up batches of lovely recipes. I decided to put this book together after finding my favorites. I wanted to share them and empower others to have a small stock-pile of gifts ready to give.
