NICELY WRITTEN!By DanielleI am an introvert who happens to be an artist, a writer, craftswoman, I do calligraphy, lettering, typography and all the other kind of crafts that I am really interested in and this book made it easier for me to understand what I should do with all of the crafts I made for the past few years. Thumbs downBy Kay DisbrowToo vague, a lot about marketing in general, but just when I expect it to get specific, it moves on th another vague topic. For instance, it talks about the importance of demographics and reaching one's target audience, but does not tell how to do that. I had hoped for specifics on Etsy, some on how to navigate it, but no. I feel the book was a waste of money.0 of 0 people found the following review helpful. It shows all the steps you need to know to operate a successful online business, I really enjoyed reading this book, it explained many business concepts that I never knew, but which should be implemented.
