Courtney Nolan : Everything Crafts Rubberstamping Made Easy (Everything: Sports and Hobbies) before purchasing it in order to gage whether or not it would be worth my time, and all praised Everything Crafts Rubberstamping Made Easy (Everything: Sports and Hobbies):

RIP OFF-this book is re-print of other books....By retroreduxI wanted to let other buyers know-this book is a reprint of a collection of three other rubber stamping books:making gifts with rubber stamps by sandra mccallrubber stamp extravaganza by vesta abel30 minute rubber stamp workshop by sandra mccallNO WHERE does this state this on the cover OR online.So, if you bought it online, like me, there is no way of knowing this is a reprint(absolutly NO new info in book).I already own the other three books so I feel doubly tricked.On top of everything else-the book is reprinted almost completely in black and white, with only a few

color photos in the middle of the book AND they reprinted shortened versions of the instructions! They should be ashamed to have put out this mess! Save your money and buy one of the actual three reprinted books instead: (NO STARS!) 0 of 0 people found the following review helpful. All of these books are by the same publisher! By CF The publisher of all the books you list is the same publisher as the book Courtney Nolan edited. There is no mention of these other books in the byline but they are most certainly mentioned in the acknowledgments. Lots of books out there are repurposed from other books all by the same publisher. Obviously you were not aware of this.
