**Maureen Mackey : Experience Clay (Davis studio series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Experience Clay (Davis studio series):

0 of 0 people found the following review helpful. Great book for teaching ceramicsBy norcalwomanEntering my first year as a high school ceramics teacher and I want as much help or advice I can get; am very happy with this book.3 of 4 people found the following review helpful. Good for beginning ceramic students.By Spike RavenI have started a ceramic program in my high school and found this book very helpful in guiding my students. The lesson plans are wonderful and give alot of room for adaptation. I reccommend this book for anyone ( not just teachers) who want to start working in ceramics.Even though this book is written for high school students the lessons can easily be adapted to elementary school students.0 of 1 people found the following review helpful. Four StarsBy Nancy MillerGreat for the price. Thank you
