Elaine M Phillips : Extreme Butterflies Colouring Book: Adult Colouring Book (Butterfly Colouring Book) (Volume 3) before purchasing it in order to gage whether or not it would be worth my time, and all praised Extreme Butterflies Colouring Book: Adult Colouring Book (Butterfly Colouring Book) (Volume 3):

1 of 1 people found the following review helpful. Nothing really special and parts are tediousBy dogloverThe main images on the pages are just OK: nothing really special and many are just different sizes of the same image.What's a real turn-off for me, though, is the extraneous edge images that are so tiny and tedious to even think of coloring. I've found myself coloring the inner picture and just leaving the "framework" as is...not even worth coloring with a single color. That framework is just extra unnecessary filling in of white space...and I'd rather have the white space.I won't buy from this author again.

Enter the world of relaxation, colour, chill and kick back! Grab a bright colour and float into the EXTREME Butterflies colouring book. One second, this book was illustrated with a abstract difference, keep in mind just intended for artistic butterfly lovers! "Warning," not your average adult colouring book.
