Each bag and its "extra" are well designed and crafted, with easy to read and understand directions for creating a really unique, useful quality product. Some of her "extras" would make great gifts!! As usual, Susan Briscoe has maintained her outstanding design standard and combined it with clear instructions and quality photography to help inspire and guide the reader to a successful result.2 of 2 people found the following review helpful. I liked this bookletBy Susie MainsThis is a great product for the advanced sewer. I found the instructions a bit hard to understand, although the pictures seemed to help on deciphering what the written instruction were describing. I liked the many patterns found within the booklet, and I think this was a great purchase.0 of 0 people found the following review helpful. Fabulous fat quarter bagsBy

ozmaggie Really worthy of more stars as the content is excellent. Instructions for making the bags is quite detailed and easy to follow. I think it would be worth buying the book to gain the maximum benefits, however I will be using my kindle to make some of the bags over Winter, which is coming up fast in Australia as I write. Good projects and not too hard to do.

Susan Briscoe's new collection of practical designs for bags and purses are sure to inspire. She takes you through a collection of 14 designs - a duo for every day of the week - with each complimentary pair featuring easy-to-follow, step-by-step instructions that make the bags quick and fun to create. Every bag is accompanied by a variation that shows off the details in a completely different color scheme, essentially giving you 14 additional inspirational designs.

February 2015 A book of Bags - all shapes and sizes 10 in total. From a Small shoulder purse to a large carryall. Fabric needed for each project is based on a fat quarter with larger bags using 3 or 4 fat quarters. Great shapes, unusual types of handles add a quirky design element. Your imagination can go wild with these bags. Even with a basic shape you can make something really pretty and useful. You may however want to make an origami bag. Made in cottons it could be a useful bag to hold your basic sewing equipment. Made with rich and glitzy fabrics it would make a gorgeous evening bag. It's a great way to use up bits and pieces, fancy buttons, zips and ribbons.
