This is just personal preference though as I love colored pencil more than gel pens. This being said I did color this book with gels,colored pencils, and even brush markers. The color took to the paper very well and made them stand out beautiful.This book includes 30 different images which include mermaids,fairies,dragons,and other adorable pictures. The picture are only printed on one side so they are easily able to be cut out and framed. You will not be disappointed with this coloring book.1 of 1 people found the following review helpful. Beautiful and Light grayscale pictures!By E. MerollaGorgeous LIGHT Grayscale and wonderful pictures! I love light colored grayscale because it lets my skin tones shine through. When it is too dark, you always

notice the gray. The pictures aren't detailed too much, which is another thing I enjoy. They're detailed just enough. This is a great book and I highly recommend it! Very happy with this purchase! UPDATE: Still very happy with this purchase! I think the reviewers that stated that there was too much dark shading aren't used to grayscale. This book is not at all dark and can be colored easily. Also, there is hardly too much detail. The detail is just right for someone like me who doesn't like a lot. If you look at the pictures of this book, you will see that the grayscale is on the light side. LOVE IT! 3 of 3 people found the following review helpful. GREAT COLORING BOOK By Judith W.
